# *Chrysanthemum*

ROOTED CUTTINGS

1944

YODER BROTHERS  
BARBERTON, OHIO

We regret to announce that conditions this year make it impossible for us to accept orders for Chrysanthemum cuttings from new customers. Our entire 1943-44 production is offered to the purchasers of cuttings in the year 1942-43, and out of consideration to all, distribution will be among them in proportion to their receipts last year.

Whoever purchased cuttings last year is entitled to an equal number this year provided he can accept at least one-third of them in unrooted cuttings. If he wishes only rooted cuttings, he is entitled to two-thirds of the number purchased last year.

## **YODER BROTHERS**

### **SCHEDULE OF RATES**

Fifty of a variety is the minimum that can be supplied; orders for more than 50 of a variety must be in multiples of 50.

The price per 100 and per 1000 for rooted cuttings appears opposite each variety in the catalogue. Unrooted cuttings will be available at \$10.00 per 1000 less than rooted cuttings.

If order totals 1000 or more, all items will take the 1000 rate. If order totals less than 1000, all items less than 250 will be billed at the 100 rate; 250 or more of a variety always take the 1000 rate.

Additions to orders or additional orders for the same customer will be considered a separate order and have no effect on the price of the original order.

In this catalogue is a duplication of names as follows:

December Glory—A large mum

December Glory—A pompon

When either of these varieties is ordered, kindly specify clearly which is intended.

**In our Novelty Section will be found introductions by V. R. DePetris and Yoder Brothers. Descriptions are by the originators.**

## NANCY CRAIN

Good button types are needed to supply the increasing demand for dainty and artistic work. Nancy Crain is a large white button which possesses perfect form and excellent substance. Has excellent growth habit producing clean and strong well flowered sprays with very high production. Matures about the 5th of November. This variety is easy to grow and should prove a favorite for early November.

Price for Rooted Cuttings:  
\$15.00 per 100; \$125 per 1000

## ARGO

Late large pompon with good rounded form and excellent substance. Color beautiful bronzy orange, shading to rust. A very appealing shade, which does not fade if allowed to stand on the plant. Growth habit somewhat dwarf and rigid. Seems to make its growth late in the season and should therefore not be planted late. Stem and foliage are excellent. Production is likewise excellent if planted early. Blooms normally the first week in December. Argo is a quality pompon with a very appealing color which sells on sight.

Price for Rooted Cuttings:  
\$15.00 per 100; \$125 per 1000

## NEVADA

Pure white anemone suitable for growing in natural sprays. Possesses excellent substance with a compactly formed cushion. Good growth habit and production. Blooms normally the end of November into December. A desirable and useful anemone producing flowerers of high quality at a season when this type and color is much in demand.

Price for Rooted Cuttings:  
\$15.00 per 100; \$125 per 1000

## MINUET

A beautifully formed, clear pink pompon of medium size that blooms for Thanksgiving. It is of extremely easy culture; the habit being vigorous and free, with dark glossy foliage, strong stems and upright sprays. This seedling bunches, keeps, and ships unusually well. It is a reliable producer and responds well under a wide diversity of cultures. It blooms at a period when a lively pink of top quality is in great demand.

Price for Rooted Cuttings:

\$15 per 100; \$125 per 1000

## BRONZE GOLDSMITH

A beautifully blended orange and Brazil red sport from Goldsmith.

Price for Rooted Cuttings:

\$15 per 100; \$125 per 1000

## YELLOW ALBATROSS

A light lemon yellow sport from the well known variety Albatross.

Price for Rooted Cuttings:

\$15 per 100; \$125 per 1000

## SYLVANNA

A medium size orange bronze single with outstanding brilliance that does not fade or go dull even when flower is past maturity. Its blooming date is November 10. The flower is of good substance and has excellent keeping qualities. This is a variety of free growth habit, and is not at all sensitive to cultural environment. It produces satisfactorily on either raised benches or ground beds. Its response to black cloth is excellent. A quality single that is easy to grow.

Price for Rooted Cuttings:  
\$15.00 per 100; \$125 per 1000

## SUNNYSIDE

This seedling should mark a new epoch for pompons. The quality will thrill the most discriminating retail artist. The production and ease of culture should excite the critical eye of the grower. Sunnyside is a small golden yellow pompon of very hard substance, on sprays of unsurpassed rigidity. It matures November 20 to 25 to be had for Thanksgiving. Unhesitatingly we recommend Sunnyside as a distinct advance and a new era in the field of high quality, productive pompons.

**All cuttings of this variety will be sold with the following restrictions: Purchaser may grow them for flower production only; propagation rights are reserved and stock must be discarded after the flowering season. Contract forms will be supplied by the originator and must be signed and returned before shipments are made.**

Price for Rooted Cuttings:  
\$5 per 100; \$45 per 1000

## LODESTAR

An intense lemon yellow single that blooms for Thanksgiving. This single, medium in size, has a very attractive star-like form. The substance and keeping quality improves any existing yellow single of similar flowering date. The color does not fade or lose brilliance with maturity. The small dark green foliage is carried on rigid stems of medium size. Lodestar should provide for Thanksgiving a much needed color in a very aristocratic form.

Price for Rooted Cuttings:  
\$15 per 100; \$125 per 1000

## REVELATION

A clear white medium size pompon for early January. The flower is of good form and substance; larger and more fully double than Snow. The type of growth of this variety is truly a revelation for this late flowering season. The small hard stems are extremely rigid, with attractive dark green and healthy foliage. It is not at all sensitive to cultural environment, possessing a persistence of habit that should make it one of the most valuable pompons in existence.

All cuttings of this variety will be sold with the following restrictions: Purchaser may grow them for flower production only; propagation rights are reserved and stock must be discarded after the flowering season. Contract forms will be supplied by the originator and must be signed and returned before shipments are made.

Price for Rooted Cuttings:  
\$5 per 100; \$45 per 1000
